

Press release

17.05.2016, Reftele Sweden

Change of CEO at the valve and actuator manufacturers ESBE AB has recruited new President / CEO

Peter Cerny has been appointed by ESBEs board to lead the company into the future. Peter has a Master of Science in Industrial Engineering and has over the last 27 years worked as Sales Manager, Marketing Manager, Division Manager and CEO.

Peter's former employer are the listed company NIBE Industrier AB, where he has worked for eight years, including the last four years as head of NIBE's all foreign sales.

"Through my work at NIBE has given me a good knowledge of the international market ESBE operates. NIBE has in recent years experienced strong sales and earnings and that is something that has marked me. Sales growth and focus on results is incredibly important for a company's development." Says Peter Cerny and continues

"ESBE is one of the finest companies in our region, with a 110 years history and it is a great responsibility to manage it onwards. Long-term, Quality, Care and Results are some of the core values and priorities ESBE operates. Simplicity, common sense and a down to earth approach I think is important when we set the future direction of the compass. I am finally very happy and proud to have received the Board's trust that together with all employees to lead ESBE into the future. "

About ESBE

ESBE manufactures, develops and markets valves and actuators that regulate fluid-based systems in small and large buildings. With more than 100 years behind us, we now have a market leading position and is a well-established brand throughout Europe. The ESBE family, which is continually growing, currently comprises just over 200 employees and has annual sales of approx. SEK 350 million. The head office and manufacturing plant is located at Reftele in Sweden. Our own sales companies run marketing and sales in the Nordic region, Germany, France, Italy, Austria, Poland and Turkey. In addition, ESBE operates through distributors in just over 20 countries.
