We shall meet the market's high demands, needs and expectations by always supplying products and services of high quality. We will achieve this by having a well-established strategy and an adaptive management system with customer focus in our products, in our processes and among our personnel.

PRODUCT – OUR PRIDE

- Developing products of high quality based on customers stated and unstated requirements.
- Eliminate potential problem in product development.
- The products shall be reliable throughout their life cycle.

PROCESSES – HOW WE WORK

- We shall control, evaluate and improve our processes to reach our company targets.
- Quality assurance of our processes to eliminate defects in the daily operation.

PERSONNEL – OUR RESOURCE

- Create engagement, pride and well-being by having a clear leadership.
- I am part of the ESBE family and always do my best to deliver quality in everything I do.

Our goal is to have a long-term relationship with satisfied customers and to enable a sustainable continuous development for the company.

ESBE continuous improvement
