

## ROHS STATEMENT

With reference to the Regulation in 2011/65/EU and 2015/863/EU – **Restriction of the use of certain hazardous substances in electrical and electronic equipment**, known as the **ROHS directive**:

ESBE hereby declares that to its knowledge, all its electrical products meet the requirement of the European Directive 2011/65/EU and 2015/863/EU (ROHS 3).

ESBE electronic actuators meet the requirements for the substances included: max 0,1 % by weight in homogeneous materials for lead, mercury, hexavalent chromium, PBB, PBDE and max 0,01 % for cadmium. Bis(2-ethylhexyl) phthalate (DEHP) (0.1 %), Butyl benzyl phthalate (BBP) 0.1 %, Dibutyl phthalate (DBP) 0.1 % and disobutyl phthalate (DIBP) 0.1 %.

ESBE declare that electronic product group 1300, 1302, 1301, 1304, 1390, 4302, 4304, 4306, 4308, 4310, 4312, 4320, 4330, 4335, 4350, 4360, 4390, 4710, 4712, 5500, 5502, 6100, 6102, 6104, 6106, 6112, 6114, 6116, 6124, 6130, 6131, 6132, 6190, 6200, 6400, 6402, 6610 that include brass valves, contains up to 3 % lead (CAS:7439-92-1). There is an exemption in ROHS directive that allow copper alloys up to 4% for our product category (Industrial monitoring and control instruments).

ESBE follow changes regarding exemptions and use of lead in our product categories closely together with our brass suppliers and industrial organizations. In parallel with this work, we are also investigating alternative future materials.
