

NO.1 IN HYDRONIC SYSTEM CONTROL

## REACH STATEMENT

With reference to the Regulation no 1907/2006/EC of 18 December 2006 concerning the **Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)**

ESBE hereby declares that we, or our suppliers, will pre-register all relevant chemical substances supplied within our products in accordance with the REACH regulation.

ESBE continuously assesses the products for content of substances of Very High Concern (SVHC), as identified in the Candidate List included in Annex XIV of the regulation.

According to current status of the SVHC candidate list with 191 SVHC substances ESBE declare that our valves in brass material contains up to 3 % lead (CAS: 7439-92-1). Information about lead content can be read in the material data sheets of each alloy.

ESBE have reported all product groups that contain over 0,1% lead in the SCIP database. All SCIP-numbers could be found on the homepage/this is ESBE/ ESBE and sustainability.
