

BUILDING PRODUCT DECLARATION BPD 3

in compliance with the guidelines of the Ecocycle Council, June 2007

1 Basic data

Product identification			Document ID 24.1	
Product name TEMPERATURE SAFETY VALVE VST210			Product group 3602	
☐ New declaration ☐ Revised declaration	In the case of a revise	d declarati	on	
	Has the product been changed?	The change relates to		
	⊠ No ☐ Yes	Changed product can be identified by		
Drawn up/revised on (date) 2021-09-28		Inspected without revision on (date)		
Other information:				

2 Supplier information

Company name ESBE AB		Company reg. no/DUNS no			
Address Bruksgatan 22		Contact person			
SE-333 75 REF	TELE	Telephone +46 371 570 100			
Website:		E-mail order@esbe.se			
Does the company have an environmental management system?			⊠ Yes	□No	
The company possesses certification in compliance with	⊠ ISO 9000	⊠ ISO 14000	Other	If "other", please specify:	
Other information:					

3 Product information

Country of final manufacture Sweden If country cannot be stated, please state why							
Area of use Hot water- and heating installations							
Is there a Safety Data Sheet for this product?							
In accordance with the re	egulations of the Swedish	Classificati	ion	Not relevant			
Chemicals Agency, plea	se state:	Labelling					
Is the product registered	in BASTA?				Yes	⊠ No	
Has the product been							
Is there a Type III environmental declaration for the product?						⊠ No	
Other information: See	product data sheet at ES	BEs home	page.				

4 Contents (To add a new green row, select and copy an entire empty row and paste it in)

At the time of delivery, the product comprises the following parts/components, with the chemical composition stated:									
Constituent materials/ Constituent substances Weight components Weight (or alloy) Classification Comment									
Brass components	-	57%	12597-71-6		SV HC- subject (lead)				
Copper components	-	29%	7440-50-8						
Stainless steel components	-	12%	SS 2331-06						

Other components	-	2%	-							
Other information:										
If the chemical composition of the product after it is built in differs from that at the time of delivery, the content of the finished built in product should be given here. If the content is unchanged, no data need be given in the following table.										
Constituent materials/ components	Constituent substances	Weight % or g	EG no/ CAS no (or alloy)	Classifi- cation	Comments					
Other information: Lead is included in the candidate list (SV HC subject). Reporting to Echa is done by the raw.										

5 Production phase

Resource utilisation and env				-		· ·		
1) Inflows (goods, intermoutflows (emissions and	ediate goods, er d residual produ	nergy etc) for the acts) from it, i.e.	e registered p from "gate-1	product into the sto-gate".	manu	facturing unit, and the		
2) All inflows and outflow	vs from the extr	action of raw ma	aterials to fir	nished products	i.e. "cı	radle-to-gate".
